

Agbay Single Blade Cake Leveler Assembly Instructions

Made In USA

Before Assembling, make sure Blade Guard is properly installed on Blade.

Step #1

Loosen both adjustment knobs 5 to 6 full turns counterclockwise.

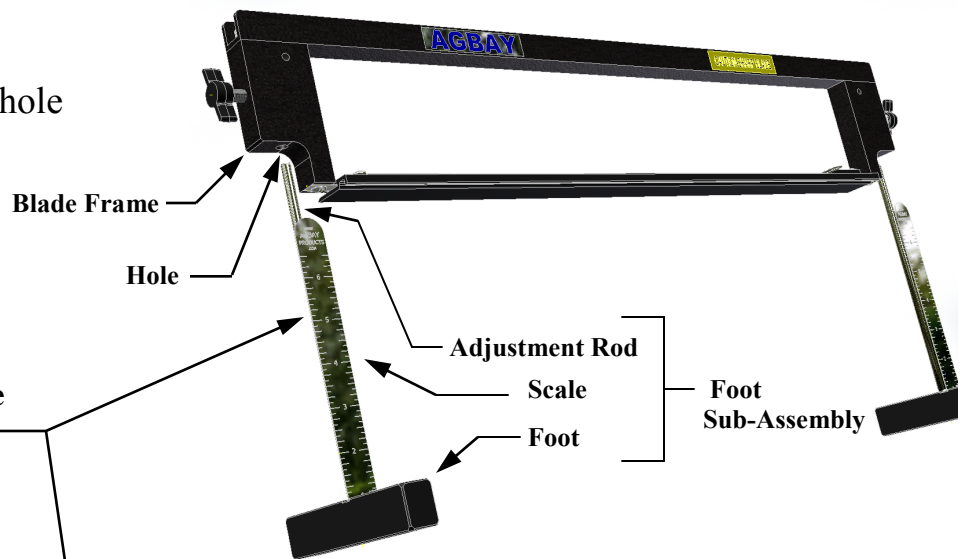

Step #2

Insert "Adjustment Rod" into hole in bottom of blade frame.

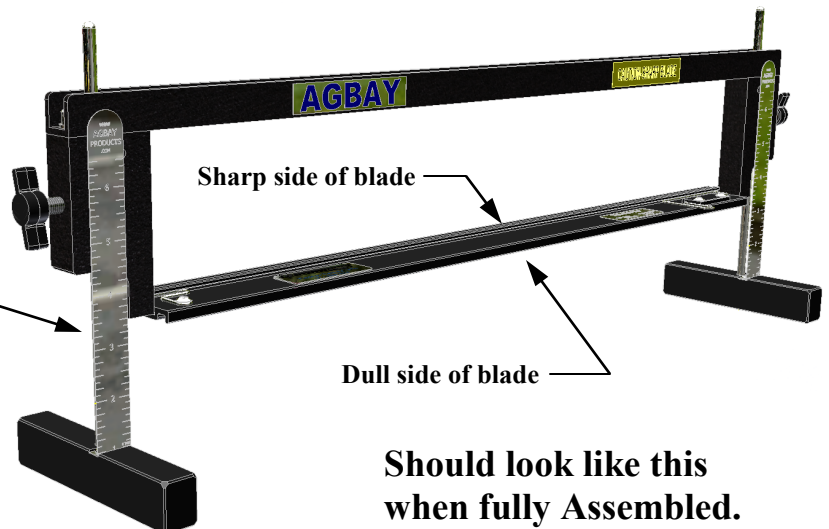

Important Note:

For safety reasons assemble foot sub-assembly so that the sharp edge of the blade is facing opposite this side of scale.

Step #3

Turn Knob clockwise to lock in place. Repeat this procedure for other side.
