

AGBAY Jr Single Blade Cake Leveler

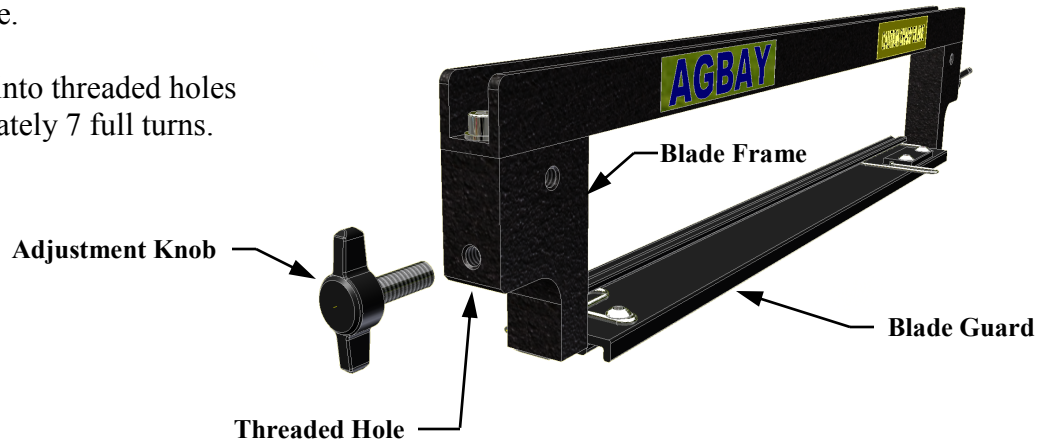

Assembly Instructions

Made In USA

Step #1

Before Assembling, make sure Blade Guard is properly installed on Blade.

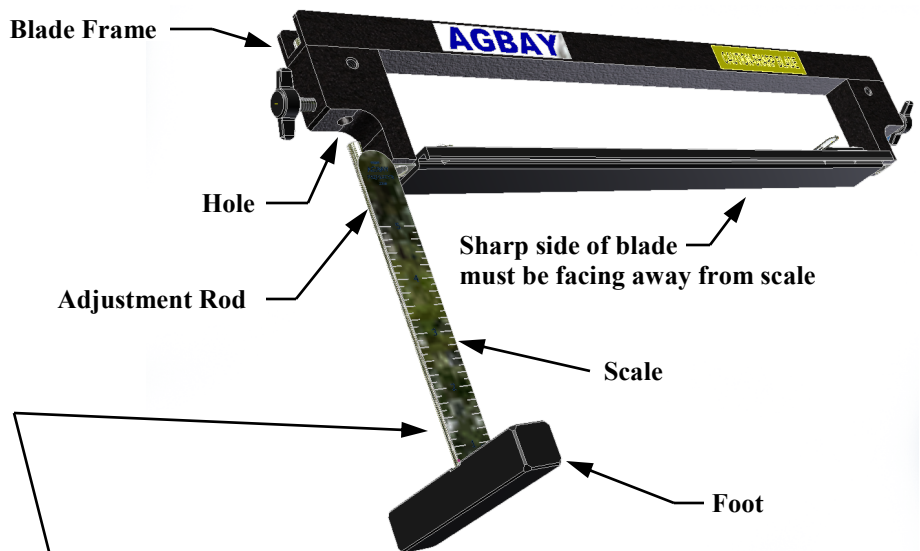

Insert Adjustment Knobs into threaded holes in side of frame approximately 7 full turns.

Step #2

Insert "Adjustment Rod" into hole in bottom of blade frame.

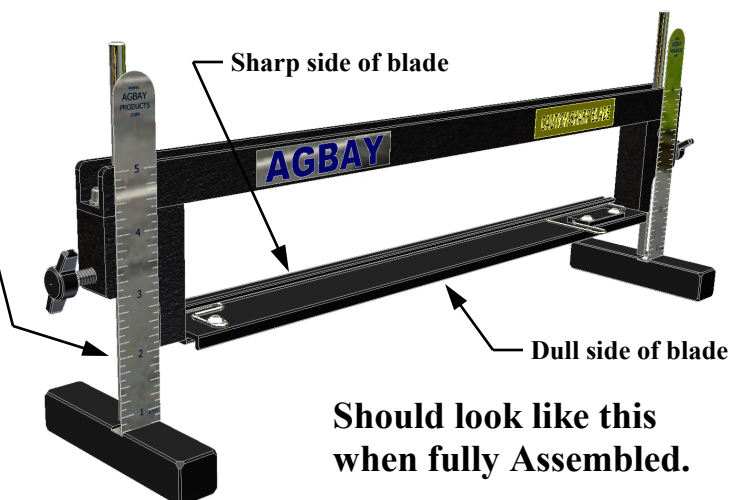

Important Note:
For safety reasons make sure to assemble foot sub-assembly so that the sharp edge of the blade is facing opposite this side of scale.

Step #3

Turn Knob clockwise to lock in place. Repeat this procedure for other side.
